

Location: Benin City, Nigeria | Open to Remote/Relocation

PROFESSIONAL SUMMARY

Developer Relations Engineer and Software Engineer with 3 years of experience driving developer adoption, community growth, and open-source contributions. As a [Rust Foundation Fellow](#) and Co-Lead of [RustAfrica](#), I've scaled Rust education across 8+ African countries, trained 1,000+ students, and integrated Rust into university curricula. Skilled at building developer advocacy programs, technical content, and partnerships that increase product adoption and community impact.

CORE SKILLS

- **Developer Relations & Advocacy:** Community strategy, curriculum integration, developer education, evangelism
- **Technical Expertise:** Rust, Python, JavaScript (Vue.js), API development, backend systems
- **Leadership:** Community growth, cross-functional collaboration, mentorship, technical writing
- **Tools:** Git, Docker, Postman, AWS, Azure, PostgreSQL

WORK EXPERIENCE

Fellowship Member | [Rust Foundation](#) | Sept 2024 – Present | Remote

- Spearheaded Rust adoption in African universities, increasing student engagement by 60%
- Designed workshops and training programs, boosting Rust proficiency by 80% among students and educators
- Partnered with universities to integrate Rust into curricula, building sustainable developer ecosystems

Co-Lead & Program Lead (Developer Relations Engineer) | [RustAfrica](#) | Aug 2024 – Present | Remote

- Grew RustAfrica from 0 to 8+ countries in under 1 year, onboarding 500+ developers
- Built partnerships with universities, developer groups, and institutions to drive Rust adoption in systems programming, Web3, and infrastructure
- Organized 10+ cross-border events and workshops, training 1,000+ students and developers

Student Lead | [Postman](#) | Nov 2023 – Oct 2024 | Remote

- Promoted API literacy among students through hands-on workshops and training sessions
- Delivered scalable learning programs, enabling hundreds of students to build with Postman tools

Open Source Contributor | [MetaGPT](#) | Jun 2023 – Nov 2023 | Remote

- Improved accessibility by translating documentation and creating user-friendly developer resources
- Contributed to documentation strategy, leading to a 60% growth in global adoption

Technical Lead (Acting CTO) | [FIRA](#) | Dec 2023 – Mar 2024 | Remote

- Directed product development and aligned technology strategy with business goals
- Oversaw technical operations and mentored team members in delivering scalable solutions

EDUCATION

- **University of Benin** — B.Sc Marine Engineering (2022 – 2025, in progress)
- **University of Benin, Center for Maritime Studies & ICT** — Diploma in Maritime Studies & ICT

CERTIFICATIONS & LANGUAGES

- **Certifications:** [Rust Fundamentals](#), Python Programming, API Fundamentals
- **Languages:** English (fluent), Efik (native), Yoruba (elementary)
