Professional Summary

Software Engineer with strong expertise in Rust, backend development, and developer advocacy. Currently a Rust Foundation Fellow and Co-Lead of RustAfrica, driving Rust adoption across African universities. Experienced in Python (Django, Flask, FastAPI) for backend services and automation. Passionate about building scalable systems and fostering community growth.

Key Skills

- Languages & Frameworks: Rust, Python, JavaScript (Vue.js), Django, Flask, FastAPI
- Tools & Technologies: Docker, Git, AWS, Azure, PostgreSQL, MySQL
- Soft Skills: Leadership, technical writing, community building, curriculum design

Experience

Rust Foundation — Fellowship Member (Sept 2024 – Present)

- Championed Rust adoption in African universities, boosting student engagement by 60%
- Led workshops and curriculum integration, improving Rust proficiency by 80%

RustAfrica — Co-Lead / Project Lead (Aug 2024 – Present)

- Spearhead programs for Rust and Web3 education across Africa
- Mentor developers and students, growing an active Rust community

Postman — Student Lead (Nov 2023 – Oct 2024)

- Promoted API literacy through workshops and training sessions
- Delivered sessions including Python-based API demos to teach best practices

MetaGPT — Open Source Contributor (Jun 2023 – Nov 2023)

- Improved project documentation and onboarding, driving adoption growth by ~60%
- Contributed Python modules for AI agent orchestration and system automation

FIRA — Technical Lead (Acting CTO) (Dec 2023 – Mar 2024)

- Oversaw backend development, aligning technology with business goals
- Designed and maintained backend services using Python (FastAPI & Flask)
- Built database models with Python ORM and automated workflows with Python scripts

Education

- University of Benin — B.Sc Marine Engineering (2022 – 2025, in progress)
- University of Benin, Center for Maritime Studies & ICT — Diploma in Maritime Studies & ICT

Certifications & Languages

- Certifications: Rust Fundamentals, Python Programming, API Fundamentals

- Languages: English (fluent), Efik (native), Yoruba (elementary)
